# What is the Stretch Surface Product

It's an organic, recyclable polymer based material. Under certain temperature it expands , stretches and creates an ideally leveled, independent surface. Our material covers any existing surface, such as ceiling or wall. Additionally such material could be installed over and around any formed 3d suspended structure.

CONSTRUCTION & CONSULTING

#### UNLIMITED DESIGN POSSIBILITIES

Adapts to any surface, any form and any place. Works with ceilings, walls, 2D and 3D designs from rounds to inclines.

#### NO MORE POPCORN OR INSULATION CEILINGS

Completely hides existing ceiling with a smooth flawless finish, with absolutely no imperfections.

#### INTEGRATES ANY CEILING OR LIGHT FIXTURE

For example spot lights, hanging chandeliers or fibre optics etc. We create large format backlits expanding the whole width of ceiling or tied multilevel backlit lights.

#### LARGE VARIETY OF COLORS AND FINISHES

Our rich color palette is offered in matte, reflective, metallic and translucent finishes. We specialize in full-color custom print for large format walls, ceilings and 3D forms.

#### LAQFOIL ACOUSTIC SOLUTIONS

Acoustic membrane absorbs and reduces the intensity of sound waves as they reflect within the room. Two types of acoustic sheets are available.

#### 100% WATERPROOF

Resistant against chlorine, vapours, hot and cold temperatures. Impermeable to water for an effective vapour barrier.

#### 100% RECYCLABLE NON-TOXIC MATERIAL

LAQFOIL Stretch Ceiling surface is removable, reusable and 100% recyclable. It is also made from 100% recyclable materials.

#### 100% FIRE RATED CERTIFIED IN CANADA, THE USA AND EUROPE

Completely fire and safety certified according to National Building Codes, Class 1 in Canada, USA & Italy | M1 in France & Belgium | B1 in Germany

#### 100% ANTIMICROBIAL, ANTI-GERM & SELF-DEODORIZING

Powerful anti-germ, anti-fungus properties that will remain for the lifetime of the LAQFOIL Stretch Ceiling Surface. Ideal material for medical environments.

#### STABLE & DURABLE

Not effected by temperature change withstanding in a range of 40C to +60C. Tension is constantly maintained, resists to significant loads due to water damage.

#### QUICK & CLEAN INSTALLATION

The installation process takes only a few hours depending the size of the room. There is little to no disturbance, mess-free and no furniture removal is necessary.
